AIMS & SCOPE

AI is more than just a single independent technology. It's making smart devices smarter, data more valuable and cloud-based tools more efficient. It's turning autonomous vehicles into reality. It will disrupt business models, create new ways of working and facilitate digital transformation. It is transforming healthcare by automated and augmented methods of diagnostics, monitoring and medical assistance. AI could process, analyze and evaluate the vast amounts of data generated today, allowing humans to focus on creative high-level thinking; thereby changing the relationship between human and machines.

So main focus of this special session is to investigate the amalgamation of Artificial intelligence in different emerging technologies.

Full length original and unpublished research papers based on theoretical or experimental contributions related to the below mentioned tracks are invited for submission in this special session:

Tracks: (Sub-Themes)

- AI and its role in data driven systems
- Legal and Ethical challenges of data driven healthcare systems
- AI and Virtual reality
- Role of AI in sustainable development of Smart Cities
- Amalgamation of AI and IoT for the emergence of Smart home Systems
- Impact of Artificial Intelligence in Hospitality Industry
- Artificial Intelligence for Cyber Security
- AI-Future of Media Industry
- Implementation of Deep Neural Networks for disease Identification
- Smart monitoring and assistive solution for patients and elders

Publication Policies:

1. All registered and presented papers/review articles shall be submitted to SPRINGER for their possible publication in a Conference Proceedings format (online). However the right to accept and subsequent publication of each will be with Springer that will be decided on the basis of the quality novelty of work and the originality of the text, the manuscript will represent.

2. In case, any registered paper/article is rejected by the Springer for its publication with their conference proceeding due to any reason (mentioned at point number-01), the sole responsibility shall lie with authors of that article. As we clearly stated on the first and home pages, that Springer will conduct quality checks on the accepted papers and only papers that pass these checks will be published.

Therefore authors are expected to avoid to use similarity text (copy and paste from other published works), should adhere to original work maintaining technical and result description qualities. Also authors will not allow to make changes in the choice of publication category (I or II) once registered and pay the fee as per category wise.

3. Paper/article length is limited upto 12 pages only. Extra pages are to be avoided, if necessary, author can place a request in advance with payment of separate fee (page-wise) as mentioned in the registration link.

4. Springer proceedings shall be available online only; hard-copy may be requested directly with the SPRINGER on payment as per their rates, once available after online publication.

5. The organizers will not have any responsibility for any of registered/presented papers, if not accepted/approved by the Springer for publication in their conference proceeding due to any of the reasons as specified in point 1 and 2 or because of any specific reason sometimes depends upon manuscript to manuscript too.

Silent features of IC4S-2024:

- **Track-wise “Best Paper Award” along with certificates to all the authors**
- **Online presentation based on specific request separately (if pandemic continues then the IC4S 2024 will be organized in hybrid mode)**
- **Low cost registration amount for the Indian Students (IITs/NITs/Central Universities/Institute of premier repute)**

NOTE: While submitting paper in this special session, please specify **[insert special session title and Number]** at the top (above paper title) of the first page of your paper.
